SUBJECT INDEX TO VOLUME 130

Accidents, traffic
  personality assessment (Shaffer et al), 308
Acetazolamide
  effects of metabolic alterations on teratogenesis (Ellison & Maren), 87
  effect of potassium metabolism in induced teratogenesis (Ellison & Maren), 105
Acidosis
  in tetratogenesis (Ellison & Maren), 87
Alloxan
  effects on teratogenesis (Ellison & Maren), 87
Amiloride
  effect of potassium metabolism on acetazolamide-induced teratogenesis (Ellison & Maren), 105
  2-amino-1,3,4-thiadiazole (Ellison & Maren), 116
Amnion abnormality
  and embryonic neuroschisis (Padget, D. H.), 127
Amyloid
  apparent failure of penicillamine treatment (Wright et al), 278
  casein-induced (wright et al), 278
  possible role of multinucleated giant cells in resorption (Wright et al), 278
  spontaneous resorption (Wright et al), 278
Amyloidosis
  experimental (Wright et al), 278
Autigen-antibody complex
  in chronic BSA-rabbit system (Dreesman & Germuth, Jr.), 344
  in immune complex and glomerular disease (Dreesnan & Germuth, Jr.), 344
Arnold-Chiari malformation
  development of (Padget, D. H.), 127
Arterial pressure and vascular resistances
  normal standards for cardiovascular da (Krovetz & Goldbloom), 187
Atrioventricular valve, overriding right
  with ventricular septal defect (Scheff et al), 259
Autonomic nervous activity
  in dogs (Ehrlich et al), 216

Benzolamide
  and potassium deficiency in teratogenesis (Maren & Ellison), 95
  and theophylline in teratogenesis (Maren & Ellison), 95
Blood pressure
  in dogs (Ehrlich et al), 216
Bone marrow,
  radioisotope scanning (McIntyre, P. A.), 61
Brain
  cerebrovascular insufficiency in the elderly (Rao & Norris), 317
Bronchial neoplasms
  management of cerebral metastasis from bronchogenic carcinoma (Hazra et al), 377

Carbonic anhydrase inhibition
  in acetazolamide-induced teratogenesis (Ellison & Maren), 105
Carcinoma
  larynx; supervoltage radiotherapy in (Lott et al), 244
  bronchogenic; management of cerebral metastasis (Hazra et al), 377
Cardiac index
  examination of (Krovetz & Goldbloom), 174
Cardiac volume
  coronary flow and other circulatory functions in dogs (Ehrlich et al), 216
Cardiovascular data
  normal standards (Krovetz & Goldbloom), 174, 187
Cell, crystalloid containing
  in epithelium of small intestine of suckling rats (González-Licea, A.), 358
Cerebrovascular disorders
  double-blind investigation of hydergine in treatment of cerebrovascular insufficiency in the elderly (Rao & Norris), 317
Clostridial endocarditis
  a case (Case et al), 54
Coronary circulation, resistance
  in dogs to exercise and eating (Ehrlich et al), 216
Cranium bifidum
  development of (Padget, D. H.), 127
Crystals
  glomerular, in cystinosis (Spear et al), 83

Dandy-Walker syndrome
  development of (Padget, D. H.), 127
Decubitus ulcer
  suspension of certain patients from their ribs (Siebens et al), 26
Dysraphism
  development of (Padget, D. H.), 127

Encephalocele
  development of (Padget, D. H.), 127
Endocarditis
  clostridial (Case et al), 54
  mixed bacterial (Case et al), 54

Ergot alkaloids, hydrogenated,
double-blind investigation of hydergine in treatment of cerebrovascular insufficiency in (Rao & Norris), 317
2-ethylamino-1,3,4-thiadiazole (Ellison & Maren), 116
Fibrinolysin
plasmin renin activity in pheochromocytoma (Harrison et al), 329
Fibrositis, primary
treatment with butazolidin and tandearil (Klinefelter, H. F.), 300
Forthcoming special events, 57, 124, 199, 269, 333, 398
Geriatrics
hydergine in the treatment of cerebrovascular insufficiency (Rao & Norris), 317
Giant cells
multinucleated, possible role in amyloid resorption (Wright et al), 278
Glomerulus
alterations in chronic BSA-rabbit system (Germuth, Jr., et al), 344
Glomerulonephritis
in the acute BSA-rabbit system (Dreesman & Germuth, Jr.), 335
Growth and development
in "inner city" population (Penchaszadeh et al), 384,
intra-uterine (Penchaszadeh et al), 384
possible biological and environmental influences (Penchaszadeh et al), 384
Hand
evaluating recovery of sensation following nerve injury (Dellon et al), 235
Handicapped child
suspension of certain patients from their ribs (Siebens et al), 26
Heart
anatomy (Fox & Hutchins), 289
Heart rate
and other circulatory functions in dogs (Ehrlich et al), 216
Heart septal defects, ventricular
with overriding right atrioventricular valve (Scheff et al), 259
Hereditary diseases
case of Hunter syndrome (DiFerrante & Nichols), 325
Hippocampus, rostral human
structural variations in (Gertz et al), 367
Hodgkin's disease
bone marrow scan in (McIntyre, P. A.), 61
Human "Y body"
interphase association with nucleolus (Gagné et al), 254
Hunter syndrome
with progeny (Di Ferrante & Nichols), 235
Hydergine
in treatment of cerebrovascular insufficiency in the elderly (Rao & Norris), 317
Hypertension, malignant
in pheochromocytoma (Harrison et al), 329
Immunoglobulins
in the chronic BSA-rabbit system (Germuth et al), 344
Information centers, biomedical
(Lunin, L. F.), 196
Insulin
causing teratogenesis (Ellison & Maren), 87
Interferon
action in mouse and human cells (Carter, W. A.), 166
production and growth conditions (Carter, W. A.), 166
Kidney glomerulus
alterations in the chronic BSA-rabbit system (Germuth et al), 344
Lactate dehydrogenase
(Zinkham, W. H.) 1,
(Zinkham & Isenesse) 11
Lawson Wilkins memorial lecture
introduction (Migeon, C. J.), 37
a new look at the mechanisms controlling sex differentiation in mammals (Jost, A.), 38
Liver, radioisotope scanning
in hematological diseases (Dibos et al), 68
Lymphocyte renewal
in cell population kinetics (Fabrikant & Foster), 208
Lymphomas
bone marrow scan in (McIntyre, P. A.) 61
Lymphopoiesis
in mouse and rat thymus (Fabrikant & Foster), 208
Meningomyelocele
suspension of certain patients from their ribs (Siebens et al), 26
Metabolic diseases
effects on teratogenesis (Ellison & Maren), 87
Metastasis
cerebral from bronchogenic carcinoma (Hazra et al), 377
Morgan, R. H.: The tenth dean of the medical faculty (Tilghman, R. C.), 207
Muller, S.: The tenth president (Tilghman, R. C.), 205
Myelocele
development of (Padget, D. H.), 127
Myocardium
anatomy (Fox & Hutchins), 289

Nerve injury
evaluating recovery of sensation in hand following (Dellon et al), 235
Neuroblastoma
recognition by scanning the reticuloendothelial system (RES) (Judisch & McIntyre), 83
Nucleolus
interphase association with human "Y body" (Gagne et al), 254

Paraplegia
suspension of certain patients from their ribs (Siebens et al), 26
Penicillamine
apparent failure in amyloid resorption (Wright et al), 278
Personality assessment
in absentia (Shaffer et al), 308
Phagocytosis
amyloid resorption (Wright et al), 278
Pheochromocytoma
malignant hypertension in (Harrison et al), 329
Pleural pressure
adaptation of cardiac output to exercise and to eating in dogs (Ehrlich et al), 216
"Plus
ça change, plus c'est la même chose." (Tilghman, R. C.), 203, 205, 207
Population
growth and development in an "inner city": an assessment of possible biological and environmental influences (Penchaszadeh et al), 384
Potassium repletion
in acetazolamide-induced teratogenesis (Ellison & Maren), 105
Pyrazolone derivatives
in treatment of primary fibrositis (Klinefelter, H. F.), 300

Radioisotope scanning of bone marrow
in hematological diseases (Dibos et al), 68
in the reticuloendothelial system (McIntyre, P. A.), 61
Radiotherapy,
high energy for carcinoma of the larynx (Lott et al), 244
Renin
plasmin renin activity in pheochromocytoma (Harrison et al), 329
Reticuloendothelial system, radioisotope
scanning (Dibos, et al), 68
Right atrial pressure
in dogs (Ehrlich et al), 216

Scoliosis
Suspension of certain patients from their ribs (Siebens et al), 26
Sensation
evaluating recovery of in hand following nerve injury (Dellon et al), 235
septicemia
following traumatic or incidental splenectomy (Maron et al), 266
Serum sickness
glomerulonephritis in (Dreesman & Germuth, Jr.), 335
Sex differentiation (Jost, A.), 38
Sperm, human
lactate dehydrogenase content (Zinkham, W. H.), 1
Spina bifida
cystica (Padget, D. H.), 127
development of (Padget, D. H.), 127
occulta (Padget, D. H.), 127
Spleen, radioisotope scanning
in hematological diseases (Dibos et al), 68
septicemia following traumatic or incidental splenectomy (Maron & Maloney), 266
Splenectomy
septicemia following S. (Maron & Maloney), 266
Suicide
personality assessment (Shaffer et al), 308
Sulfonamide carbonic anhydrase inhibitors
teratological effect of benzolamide, a new carbonic anhydrase (Maren & Ellison), 116
Supervoltage radiotherapy
for carcinoma of the larynx (Lott et al), 244

Teratogenesis
effect of benzolamide (Maren & Ellison), 87
effect of metabolic alterations (Ellison & Maren), 87
effect of potassium metabolism on acetazolamide-induced (Ellison & Maren), 105
Thymus cell
population kinetics (Fabrikant & Foster), 208
proliferation (Fabrikant & Foster), 208
renewal (Fabrikant & Foster), 208
Triamterene
effect of potassium metabolism in induced teratogenesis (Ellison & Maren), 105

Y chromosome
interphase association to nucleolus (Gagné et al), 254

Zolamide
the teratological effect of benzolamide, a new carbonic anhydrase inhibitor (Maren & Ellison), 95

THE JOHNS HOPKINS MEDICAL JOURNAL

Established in 1889 as The Johns Hopkins Hospital Bulletin

Published monthly under the sponsorship of
The Johns Hopkins University School of Medicine, The Johns Hopkins Hospital
and The Johns Hopkins Medical and Surgical Association

EDITORIAL BOARD

Chairman: Thomas B. Turner
Editor: R. Carmichael Tilghman
Associate Editor: Richard A. Polacsek

Douglas G. Carroll, Jr.
Jerome D. Frank
Donald S. Gann
William E. Grose
Neil A. Holtzman
John Eager Howard
Georgeanna Seegar Jones
Guy M. McKhann
George T. Nager
Malcolm L. Peterson
Richard L. Riley

SUBJECT INDEX TO VOLUME 131

Adrenal cortex hormones
in Sheehan's syndrome (Haddock et al), 80
Aldosterone
reserve in Sheehan's syndrome (Haddock et al), 80
secretory rate in Sheehan's syndrome (Haddock et al), 80
secretory rate upon ACTH stimulation in normals, steroid suppressed and hypopituitary subjects (Haddock et al), 80
Anaphylaxis
during pitressin therapy in diabetes insipidus (Lawrence et al), 172
Anthropometry
correlation of sibs (Langford & Watson), 143
Anti-antibodies
cytolytic activity of human lymphocytes (Rehn & Henny), 261
Arnold-Chiari deformity
and Dandy-Walker syndromes in one postmortem specimen (Padget & Lindenberg), 228
Ateliosis, sexual
studies in type II (Merimee, T. J.), 165
Automatic data processing
processing fracture registry using marks sense forms (Thompson & Burow), 220

Birth weight and maternal factors (Penchaszadeh et al), 11
Blood pressure studies in the Amish (Jorgenson et al), 329
Bone marrow diseases
infarction (Brown, C. H., III), 189
necrosis (Brown, C. H., III), 189

Calcification, physiologic
inhibition by hydrolysates of phytic acid and selected phosphorylated inositols (Thomas et al), 133
Cerebellar cortex
complete absence of vermis (Padget & Lindenberg), 228
Cerebellum
bizarre displacement of, with encephalocele (Padget & Lindenberg), 228
Child development
after malnutrition (Graham & Adrianzen T.), 204
Child nutrition
growth after severe malnutrition (Graham & Adrianzen T, 204
Chlordiazepoxide
in hyperthyroidism (Barnes et al), 298
Cholecalciferol, (25-Hydroxycholecalciferol)
effects of treatment in hypophosphatemic (vitamin D refractory) rickets and osteomalacia (Cohanim et al), 118
Cholera
an enterotoxin produced by noncholera vibrios (Zinnaka & Carpenter), 403
Cholera toxin
and intestinal mucosa (Yardley et al), 1
Contracture
(Thayer Lecture II) (Adams, R. D.), 54
Corticotropin
reserve in Sheehan's syndrome (Haddock et al), 80
Cystic fibrosis
glomerular lesions in (Oppenheimer, E. H.), 351
possible relation to diabetes mellitus, acquired cyanotic heart disease and cirrhosis of the liver (Oppenheimer, E. H.), 351

Dandy-Walker syndrome
development of (Padget & Lindenberg), 228
Denervation
in myopathology (Thayer Lectures I and II) (Adams, R. D.), 30
Diabetes insipidus
hypersensitivity to pitressin (Lawrence et al), 172
Diabetes mellitus
possible relation to glomerular lesions in cystic fibrosis (Oppenheimer, E. H.), 351
Dwarfism, pituitary
studies in HCH-deficient dwarfs (Merimee, T. J.), 165

Encephalocele
occipital, including abnormal brain (Padget & Lindenberg), 228
Enterotoxins
produced by noncholera vibrios (Zinnaka & Carpenter), 403
Environment
influence on gestation (Penchaszadeh et al), 11

Environmental health
health and disease studies over a span of 26 years (Zierler, K. L.), 303

Festschrift, Howard, J. E.:
Dr. Howard at seventy (Asper, S. P.), 79
agnogenic and stimulus-initiated growth hormone release in man: a reappraisal, and a multiple pool model of hormonal release (Spitz et al), 149
adrenocortical, thyroidal and human growth hormone reserve in Sheehan's syndrome (Haddock et al), 80
clinical studies with thyrotropic releasing hormone. A test of anterior pituitary functional reserve (Martul et al), 178
comments on the episodic function of the pituitary gland (Bledsoe, T.), 147
diabetes insipidus with hypersensitivity to pitressin. An immunological study (Lawrence et al), 172
effects of prolonged treatment with 25-hydroxycholecalciferol in hypophosphatemic (vitamin D refractory) rickets and osteomalacia (Cohanim et al), 118
inhibition of mineralization by hydrolysates of phytic acid and selected phosphorylated inositols (Thomas & Tilden), 133
parathyroid function during chronic magnesium deficiency (Connor et al), 100
studies in type II sexual ateliosis (Merimee, T. J.), 165
studies on the episodic secretion of cortisol in uremic patients (Mishkin et al), 160
study of the urinary sodium, salt taste threshold and blood pressure resemblance of siblings (Langford & Watson), 143
triiodothyronine toxicosis developing during acute thyroid drug therapy for hyperthyroidism (Hollander et al), 184
Fluorescent antibody technic
antibasement membrane disease (Germuth et al), 367
Fractures
fracture registry (Thompson & Burow), 220

Genetics, population
and gestation (Penchaszadeh et al), 11
blood pressure studies in Amish (Jorgenson et al), 329
Gestational age
maternal factors (Penchaszadeh et al), 11
Glomerulonephritis
antibasement membrane disease (Germuth et al), 367
Goodpasture's syndrome
glomerular lesions (Germuth et al), 367
Growth and development
effect of certain maternal characteristics on birth weight, gestational age and intrauterine growth (Penchaszadeh et al), 11
late "catch-up" growth after severe infantile malnutrition (Graham & Adrianzen T), 204
Growth disorders
late "catch up" growth after malnutrition (Graham & Adrianzen T), 204

Hamman-Rich syndrome
a new look at (Wagley, P. F.), 412
Heart
angiocardiography in infants and children; major complications (Ho et al), 247
cardiac catheterization in infants and children (Ho et al), 247
Heart catheterization
in infants and children, major complications (Ho et al), 247
Heart failure, congestive
in acute myocardial infarction (Goulden et al), 271
possible relation to glomerular lesions in cystic fibrosis (Oppenheimer, E. H.), 351
Hemodialysis
studies on episodic secretion of cortisol in uremic patients (Mishkin et al), 160
Hemodynamics
acute myocardial infarction: comparison of "uncomplicated" and mild left ventricular failure (Goulden et al), 271
Hepatoma
a nuclear magnetic resonance study of water in Morris hepatomas (Hollis et al), 441
Hereditary diseases
a new look at the Hamman-Rich Syndrome (Wagley, P. F.), 412
blood pressure studies in the Amish (Jorgenson et al), 329
clinical and probable genetic heterogeneity within mucopolysaccharidosis II (Lichtenstein et al), 425
Histamine liberation
leucocyte histamine in diabetes insipidus (Lawrence et al), 172
Histocompatibility testing
the HL-A system in clinical medicine (Kissmeyer-Nielson et al), 385
HL-A system
in clinical medicine (Kissmeyer-Nielson et al), 385
Homocystinuria
variability of urinary excretion of homocystine and inorganic sulfates (Wapnir & Koppanyi), 445
Howard, Dr. at seventy (Asper, S. P.), 79

Hydrocortisone
reserve in Sheehan's syndrome (Haddock et al), 80
secretion in uremic patients on hemodialysis (Mishkin et al), 160
Hypersensitivity
to pitressin (Lawrence et al), 172
Hypertension
blood pressure studies in the Amish (Jorgenson et al), 329
correlation of sibs (Langford & Watson), 143
Hyperthyroidism
effect of chordiazepoxide (Librium) on thyroid function (Barnes et al), 298
enhancement of warfarin-induced hypoprothrombinemia (Vagenakis et al), 69
response to TRH (Martul et al), 178
triiodothyronine toxicosis developing during acute thyroid drug therapy (Hollander et al), 184
Hypertonic solutions
and cholera toxin, effects on intestinal mucosa (Yardley et al), 1
Hypocalcemia
during magnesia depletion (Connor et al), 113
Hyponatremia
in hypopituitarism (Haddock et al), 80
in Sheehan's syndrome (Haddock et al), 80
Hypophosphatemia, familial in rickets and osteomalacia (Cohanim et al), 118
Hypophysectomy
response to TRH (Martul et al), 178
Hypopituitarism
anaphylaxis during pitressin therapy (Lawrence et al), 172
serum TSH levels after TRH (Martul et al), 178
Hypoprothrombinemia
enhancement of warfarin-induced by thyrotoxicosis (Vagenakis et al), 69

IGG
antibasement membrane disease (Germuth et al), 367
Infant, newborn
water-electrolyte balance (Nichols et al), 212
Inositol
mineralization of selected phosphorylated (Thomas & Tilden), 133
Intestinal atresia
in the rabbit fetus (Tsujimoto et al), 287
Intestinal mucosa
in cholera (Yardley et al), 1

Jewett, Hugh
portrait presentation (Scott, W. W.), 322

Lectures
Thayer I and II (Adams, R. D.), 24, 25
Verne R. Mason (Kissmeyer-Nielsen et al), 385
Librium
in hyperthyroidism (Barnes et al), 298
Liver cirrhosis
possible relation to glomerular lesions in cystic fibrosis (Oppenheimer, E. H.), 351
Lymphocytes–physiology
cytolytic activity towards PPD-coated target cells in tuberculin-positive and negative individuals (Rehn & Henney), 261

Muscle contraction
an in vitro model demonstrating (Bass et al), 436
Muscle cramps
(Thayer Lecture II) (Adams, R. D.), 54
Muscle, smooth
an in vitro model demonstrating (Bass et al), 436
Muscles
physiopathology (Thayer Lectures I and II) (Adams, R. D.), 24, 25
role of muscle in electrolyte metabolism in the newborn (Nichols et al), 212
Muscular atrophy
(Thayer Lectures I and II) (Adams, R. D.), 24
Muscular diseases
(Thayer Lectures I and II) (Adams, R. D.), 24
Magnesium deficiency
and parathyroid function (Connor et al), 100
Malnutrition
severe infantile; late "catch-up" growth (Graham & Adrianzen T.), 204
Measles
immunization levels (Granoff et al), 281
outbreak (Granoff et al), 281
Medical records
fracture registry (Thompson & Burow), 220
Meningitis, meningococcic
unusual complications of (Maron et al), 64
Microcephaly
inverse cerebellum and encephalocele (Padget & Lindenberg), 228
Microscopy, electron
antibasement disease (Germuth et al), 367
Motor neurons
in myopathology (Thayer Lectures I and II) (Adams, R. D.), 26
Mucopolysaccharidosis
clinical and probable genetic heterogeneity (Lichtenstein et al), 425
Myasthenia gravis
(Thayer Lecture II) (Adams, R. D.), 45
Myocardial infarction, acute
hemodynamics of (Goulden et al), 271
prognosis in (Goulden et al), 271
Myotonia
(Thayer Lecture II) (Adams, R. D.), 53, 54

Neoplasms–pathology
a nuclear magnetic resonance study of water in two Morris hepatomas (Hollis & Saryan), 441
Neuroschisis, embryonic
explaining bizarre brain and encephalocele (Padget & Lindenberg), 228
Nuclear magnetic resonance
a nuclear magnetic resonance study of water (Hollis & Saryan), 441
Nutrition disorders
severe infantile malnutrition (Graham & Adrianzen T), 204

Obesity
blood pressure studies in the Amish (Jorgenson et al), 329
Oculomotor paralysis
(Thayer Lecture II) (Adams, R. D.), 49
Osteomalacia, hypophosphatemic
effects of treatment with 25-hydroxycholecalciferol (Cohanim et al), 118

Paralysis
muscular (Thayer Lecture II) (Adams, R. D.), 46
Paralysis bulbar
(Thayer Lecture II) (Adams, R. D.), 49
Parathyroid hormone
during chronic magnesium deficiency (Connor et al), 100
Paresis
(Thayer Lecture II) (Adams, R. D.), 46
Parity
and birth weight (Penchaszadeh et al), 11
Phytic acid
inhibition of mineralization by hydrolysates (Thomas & Tilden), 133
Phosphoinositides
mineralization of (Thomas & Tilden), 133
Pitressin
hypersensitivity in diabetes insipidus (Lawrence et al), 172
Pituitary gland
comments on episodic function (Bledsoe, T.), 147
Pituitary neoplasms
response to TRH (Martul et al), 178
Pulmonary fibrosis
a new look at the Hamman-Rich syndrome (Wagley, P. F.), 412

Rabbit fetus
experimental intestinal atresia (Tsujimoto et al), 287
Rickets (vitamin D refractory)
effects of prolonged treatment with 25-hydroxycholecalciferol (Cohanim et al), 118

Salt taste threshold
correlation of sibs (Langford & Watson), 143
Sheehan's syndrome
aldosterone reserve (Haddock et al), 80
cortisol insufficiency (Haddock et al), 80
cortisol reserve (Haddock et al), 80
gonadal failure (Haddock et al), 80
human growth hormone reserve (Haddock et al), 80
thyroid deficiency (Haddock et al), 80
Smoking
effect on birth weight (Penchaszadeh et al), 11
Socioeconomic factors
on birth weight, gestational age, growth (Penchaszadeh et al), 11
Sociometric technics
blood pressure studies in the Amish (Jorgenson et al), 329
Sodium
conservation in hypopituitarism (Haddock et al), 80
conservation in Sheehan's syndrome (Haddock et al), 80
Sodium
correlation of sibs excretion (Langford & Watson), 143
Somatotropin
agnogenic and stimulus-initiated release in man (Spitz et al), 149
in Sheehan's syndrome (Haddock et al), 80
studies in HGH-deficient dwarfs (Merimee, T. J.), 165
Spinal diseases
and myopathology (Thayer Lectures I and II) (Adams, R. D.), 24
Statistics, logarithmic transformations
in blood pressure studies in the Amish (Jorgenson et al), 329

Taste
salt taste threshold (Langford & Watson), 143
Thyroid diseases
triiodothyronine toxicosis developing during acute thyroid drug therapy for hyperthyrodism (Hollander et al), 184
Thyroid gland
PBI response to TSH stimulation (Haddock et al), 80
RAI response to TSH stimulation (Haddock et al), 80
thyroidal reserve in Sheehan's syndrome (Haddock et al), 80
Thyroid gland function tests (Barnes et al), 298
Thyrotropic releasing factor
effect of on serum TSH (Martul et al), 178
Thyrotropin
serum levels after thyrotropin releasing factor (Matul et al), 178

Thyroxine
serum levels after TRH (Martul et al), 178
Transplantation immunology
the HC-A system in clinical medicine (Kissmeyer-Nielsen et al), 385
Triiodothyronine–drug therapy
triiodothyronine toxicosis in treatment for hyperthyroidism (Hollander et al), 184
Tuberculin test
cytolytic activity of human lymphocytes in tuberculin-positive and negative individuals (Rehn & Henney), 261
Uremia
cortisol secretion in (Miskim et al), 160
Urinary excretion
variability of homocystine and inorganic sulfates (Wapnir & Koppanyi), 445
Vasopressin
hypersensitivity in diabetes insipidus (Lawrence et al), 172
Vibrio infections
enterotoxin produced by noncholera vibrios (Zinnaka & Carpenter), 403
Warfarin
enhancement of induced hypoprothrombinemia by thyrotoxicosis (Vagenakis et al), 69
Water
nuclear magnetic resonance study of in Morris hepatomas (Hollis et al), 441
Water-electrolyte balance
in the newborn infant. The role of muscle (Nichols et al), 212
